

SEMI AUTOMATIC PISTON FILLING MACHINE FOR VISCOUS LIQUIDS & PASTES

Overview

Right Stuff Equipment Piston Fillers are a great entry level option. Machines can be purchased as a table top unit or on its own stand with casters. The viscous piston filler is a dependable, flexible and accurate. This piston filler is capable of handling water thin to highly viscous products and even handles chunks or particles such as salsa and sauces.

These models feature a highly accurate 3-way valve with fittings for the hopper, product cylinder and nozzle. Disassembly and cleaning is completed in minutes.

When operating, the user can either fill a hopper on the top of the filler or drop a line of flexible tubing into a drum or tank. Once the adjustment is made for the volume to fill, the user places an empty container under the filling nozzle. The machine operates in single fill mode or auto mode. In the single fill mode, the filler stands by until the foot pedal is depressed. With the flip of a switch machine is in auto mode and cycles automatically. Flow controls allow you to increase or decrease the speed of the fill.

**STAINLESS STEEL
CONSTRUCTION**

Features

- Fills liquids, creams, gels and other food products
- Available with 1 or 2 Heads in a variety of piston sizes ranging in volume
- Cone shaped stainless steel product hopper with cover
- Filling Speeds: Up to 30 b.p.m. (depends on product and container size)
- Fill accuracy: +/- 0.25%
- Air Requirements: 2-5cfm @ 90-psi
- Tool free strip down for easy cleaning
- All 304 stainless steel sanitary tri-clamp connection, connection "T's", product cylinder, and contact parts.
- Suitable for food and pharmaceutical applications.
- Bottom close positive shutoff nozzles option ensures drip free operations (sized for your application)
- Small footprint for simple bench or stand mounting
- Quick release nozzle and feed pipe with different nozzle size options
- Pneumatic operation suitable for hazardous areas or wash-down facilities
- Replacement parts always in stock
- Free phone support

Double Paste Filling Machine

Filling Range	Model
25-60ml	DPF 25.60
50-125ml	DPF 50.125
100-250ml	DPF 100.250
200-500ml	DPF 200.500
400-1000ml	DPF 400.1000
800-2500ml	DPF 800.2500
2000-5000ml	DPF 2000.5000

INTEGRATED SOLUTIONS

With an experienced engineering team, Right Stuff Equipment can handle your entire packaging line integration for you. Right Stuff Equipment builds the support structure, infeed, take away and accumulation in house; saving you money. Our OEM partners allow us to provide a fully integrated solution as a single service.

- Installation & Training
- Full warranty parts for one year w/ 2 year option
- Free telephone technical support

FINANCING & LEASING

Right Stuff Equipment provides financing and leasing options for new and used equipment. This allows our customers the opportunity to generate a positive cash flow immediately after equipment installation.
