APPS R-12K

TABLET COUNTER

VERSATILITY, ACCURACY, AND RELIABILITY are the hallmarks of the R-12K Tablet Counter manufactured by APPS, Inc.

The advanced twelve-lane counting system of the **R-12K** is capable of counting all types of tablets, capsules and gelcaps, regardless of shape or size.

Fast, easy changeover in under 20 minutes, without the use of tools, is an important feature of the **R-12K**.
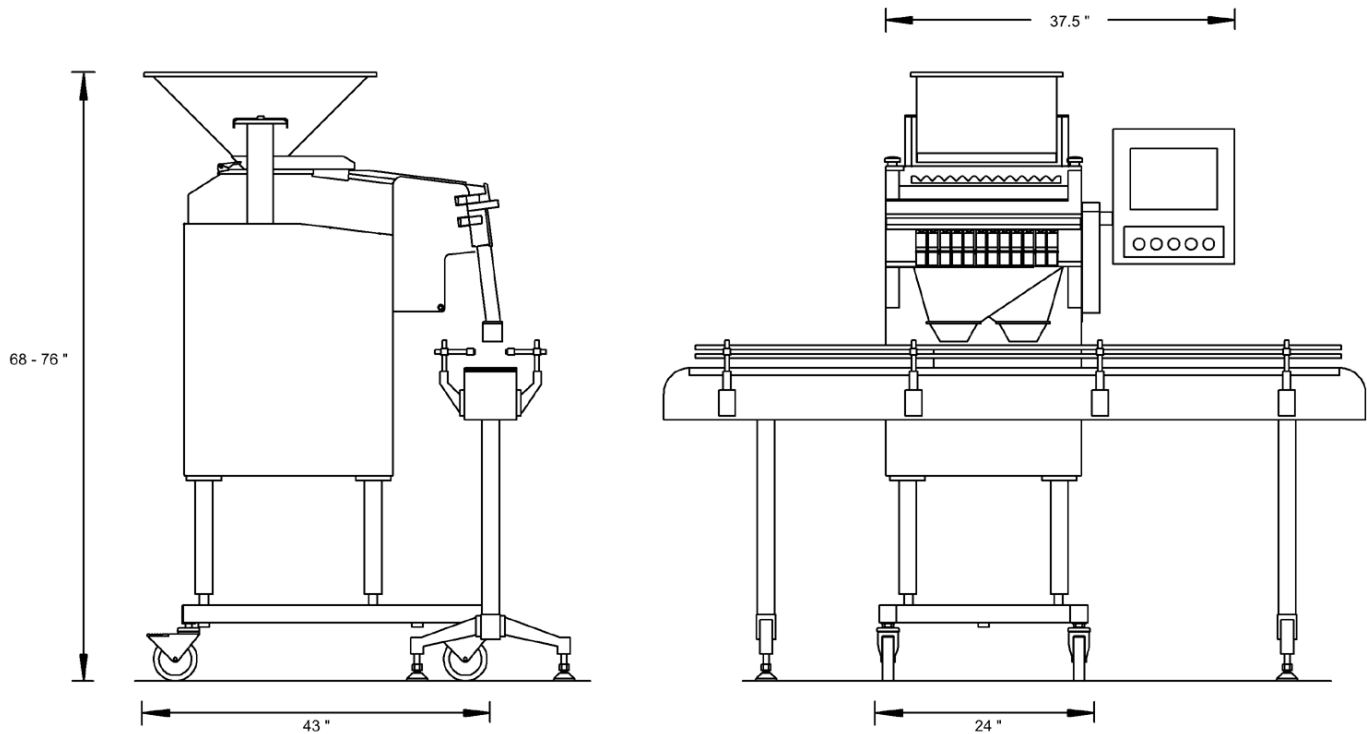

The **R-12K**'s unique design provides the operator with a clear, unobstructed view of the product, from hopper to bottle. This, coupled with a color-touch screen operater interface, and multi-language capability, creates an effective, user-friendly environment.

No matter what your product looks like, you can count on APPS, Inc. for fast, accurate results.

gel caps or capsules • fast, reliable operation
irregular shapes • large and small tablets
simple, easy clean-up • compact size, low cost
