

**A-B-C PACKAGING  
MACHINE CORPORATION**

**End of line packaging solutions**

# We've got you covered

- Multiple machinery solutions
- Innovative engineering
- Quality manufacturing
- Expert installation
- Responsive service teams
- PMMI-certified technicians
- Remote diagnostics and repairs
- Operator training
- Product manual access from machine control panels
- Genuine A-B-C spare parts
- Factory rebuilds/upgrades
- Proven record of performance
- Over 26,000 installations worldwide
- Our commitment to your satisfaction

## A-B-C gives you what you need to succeed

### Production machinery

When you buy packaging machines from A-B-C, you get our total commitment to your product satisfaction and your production line success. It starts with innovative engineering, quality manufacturing, and on-time delivery. Once your machines are installed, you will truly experience the benefits of owning A-B-C packaging machines.

### Dedicated customer service

Our service program is designed to keep your machines operating at top performance. A-B-C service technicians complete a rigorous training program to serve our customers with expert service, machine diagnosis and repair.

A phone call is your first step to problem analysis and many service inquiries are handled without an in-plant service call. Most A-B-C machines are modem-capable, allowing our technicians to quickly evaluate and resolve faults remotely.

In-plant service calls receive top priority, and are followed by a report detailing the work performed, any recommendations, and machine performance documentation. This history provides a valuable resource and saves time and money for future service and maintenance of your equipment.

Service contracts and on-call machine evaluations are designed to keep your equipment operating at peak performance. To further maximize your equipment investment, we offer refurbish services that return your used equipment to as-new condition.

### Quality parts

We maintain a substantial inventory of factory-built parts, machined to exacting specifications, for our quick-ship program, and custom parts are generally shipped within 24 hours. Machine manuals are supplied in both print and electronic formats with every machine, with complete parts lists to help maintenance personnel easily identify any parts required for service.

### Professional training

Equipment training can increase your employees' proficiency and confidence and make your entire operation run more smoothly. Our PMMI-certified staff are qualified trainers who have learned proven techniques to convey their extensive machine knowledge to your plant personnel. Hands-on training is offered at A-B-C's production facility or at your location.

### A company you can trust

Since 1940, A-B-C has manufactured, installed and serviced packaging machines on production lines around the world. Our longevity in the industry has provided valuable feedback and real-world experience that translates into better machines for our customers. Over the years, we have earned many loyal customers, and repeat business is the cornerstone of our success. Every day, we make it our business to earn yours.

# Multiple machinery solutions for your packaging lines

Case erector/ sealers

Packers

Case sealers

Partition inserters

Palletizers

Model 436 case sealer

# A-B-C's multiple machinery solutions for your packaging lines

## Case Erector/ Sealers

- Model 450  
20-50 cpm Adhesive
- Model 400HS  
10-40 cpm Adhesive
- Model 400  
10-30 cpm Adhesive
- Model 400T  
10-40 cpm Tape
- Model 300  
15-25 cpm Adhesive
- Model 300T  
15-25 cpm Tape
- Model 440  
10-30 cpm Adhesive or Tape  
For very large cases
- Model 335  
10-30 cpm Adhesive  
For Tablock cases

## Packers

- Model 600 Robotic Packer
- Model 170 Tray Packer
- Model 19 Packer  
1-15 cpm Semi-Automatic
- Model 29 Packer  
1-15 cpm Semi-Automatic  
For large cases

## Case Sealers

- Model 436 Top only  
10-75 cpm Adhesive
- Model 436T Top only  
10-50 cpm Tape
- Model 30 Top and Bottom  
5-50 cpm Adhesive
- Model 30T Top and Bottom  
5-50 cpm Tape
- Model 236 Top only  
15-25 cpm Adhesive
- Model 236T Top only  
15-25 cpm Tape
- Model 121 Tablock Slitter/Top  
Sealer  
10-50 cpm Adhesive or Tape

## Partition Inserters

- Model 70 Multicelled  
Partition Opener/ Inserter  
Single or dual head

## Decasers

- Model 49 for large bottles
- Model 156 for round or irregular  
bottles

## Palletizers

- Model 72A  
Cases, crates, trays, RPCs or totes
- Model 72AE for increased speeds  
Cases, crates, trays, RPCs or totes
- Model 72AG High Speed  
Cases, crates, trays, RPCs or totes
- Model 72AH for heavy loads  
Cases, crates, trays, RPCs or totes
- Model 72SA Semi-Automatic  
Cases, crates, trays, RPCs or totes
- Model 75 High Speed Bag  
High speed bag palletizing
- Model 72B Bag palletizing
- Model 72SAB Semi-Automatic  
Bag palletizing

## Bulk Depalletizers

- Model 108L Low Level Discharge
- Model 108H High Level Discharge

## Made in America

Over ninety percent of the machine components in A-B-C machines are crafted in our own manufacturing plant. It is our tradition of quality and craftsmanship that has made A-B-C a leader in packaging machinery manufacture since 1940.
